Acknowledgments

I would like to publicly acknowledge help that I received from the following people during the course of my research, leading up to this volume:

Rebecca Aftowicz, reference librarian at the research library at the Office of the Comptroller of the Currency, provided information on the OCC's collection of *Comptroller Bulletins*.

Leonard Augsburger arranged for some of the author's research to be hosted by Archive.org by way of the Newman Numismatic Portal, broadening awareness of this project within the numismatic community. This resulted in the participation of important contributors who have expanded the scope and improved the accuracy of the content.

Rose Buchanan, archives specialist at the National Archives in Washington, D.C. supplied information on a collection of *Comptroller Bulletins* and related materials in the papers of the Bureau of Indian Affairs.

Dr. Sergio Correia discovered more than 1,000 transcription errors in a 330,000+-row spreadsheet, compiled by the author for use in this and other volumes, thereby making the work more accurate and useful. He also provided the author with scans of pages of documents that were missing in copies available for download from the major online information aggregation services, and shared links to other materials that advanced the work. He also shared some charts and graphs illustrating the value of this type of visual data presentation.

Kathy E. Cosgrove, senior reference librarian at the research library of the U.S. Federal Reserve Bank in St. Louis, provided the author with information on the serial publication *Individual Statements on Condition of National Banks*.

Mark Drengson made vast improvements to a 330,000+-row spreadsheet of bank officer and bank statistics data, and added a

column giving the specific dates when banks filed their annual statements. He located a copy of the 1885 edition of the *Annual Report of the Comptroller of the Currency* containing bank statements and helped abstract data from that source. He compiled a list of bank presidents and cashiers from the 1863 volume of *Bankers Magazine and Statistical Register*, and did the same from the July 1921 edition of the *Rand-McNally Bankers' Directory*.

James Ehrhardt made numerous corrections that remedied the misspellings of the names of Iowa bank officers that had been transcribed from the annual reports of the Comptroller of the Currency.

Wayne Homren published an announcement of the author's research in the *E-sylum*, broadening awareness of the work in the numismatic community.

Dr. Peter Huntoon provided information on types of documents in the National Archives that have direct relevance to national banks, introduced me to others that have made important contributions to the project, and broadened its impact within the sphere of the paper money community. He provided bank statistical data from the *Annual Reports of the Comptroller of the Currency* for the years 1863 and 1864, which the author did not have access to, helped to compile bank statement data from the 1885 *Annual Report of the Comptroller of the Currency*. He made more than 1,000 corrections to a 330,000+-row spreadsheet containing bank officer listings and bank statistics data from year to year, and provided the author with much data he gleaned from records in the National Archives. Dr. Huntoon also wrote an article for the *Bank Note Reporter* publicizing this research. Dr. Huntoon also provided terminology for 1882-series \$5 note varieties having either *stacked* treasury signatures or *in-line* treasury signatures.

Thomas Mcanear of the National Archives helped the author to locate a digital copy of

Acknowledgments

the 1941 edition the OCC's *Alphabetical List of National Banks by States*, which has extensive information on consolidations, receiverships, and voluntary liquidations.

Dr. Smith Williams of the Center for Financial Research at the Federal Deposit Insurance Corporation provided a link to an FDIC database that has important historical information on national banks.

Scope and Plan

Intent:

The plan for this work is to arrange and present information in a format that features tables, lists, and charts to facilitate rapid and convenient retrieval of data. Narratives will be kept to a minimum.

Target audience:

Paper money collectors, local historians, and genealogists are most likely to see value in this title. There may be aspects of the work that will also be regarded as useful by some economic historians.

Scope:

This reference work is divided into three sections:

1) General Introduction. This includes:

- Bibliography of government reports, bank trade publications, and directories consulted in preparation of the content
- Tabular listings of the largest banks from year to year in terms of total resources, and those with the largest circulation
- Statistics providing aggregate total resources and mean average total resources of national banks from year to year
- Annual statistics documenting the number of banks in operation, and tallies of numbers that went into voluntary liquidation, consolidation, or which were dissolved during the course of receivership.

This section appears in its entirety in Volumes 1 through 3.

2) Lists of National Banks chartered from 1863 up till the end of 1935 (charter numbers 1 through 14348). All known title variations and changes in location--prior to 1936--are included.

This section appears in its entirety in volume 4.

3) Bank monographs. Each charter number from 1 through 14348 will receive a stereotyped monograph averaging from one to several pages. Content will include:

Tabular Guide to United States National Banks, 1863-
1935 * Volume 37: Bank Monographs *
Scope and Plan

- State, city, and bank title(s)
- Street address(es) (when known)
- Antecedent information (when applicable)
- Organization date
- Charter date
- Opening date
- List of mergers and consolidations with other national banks wherein the charter number was retained
- Notable dates not enumerated elsewhere
- Details pertaining to the conclusion of business by consolidation, voluntary liquidation, or receivership (if applicable). Lists of names of receivers in receivership cases will frequently be incomplete.
- Sequential list of bank presidents, with range of years in office
- Sequential list of bank cashiers with range of years in office
- List of bank officer pairings (of interest to students of national bank notes)
- Bank statistics: total resources and bank note circulation
- Graph representing total resources data for banks in operation for 10 or more years, from 1865 onwards.
- Rankings of the largest \$1,000,000+ national banks by state and nationwide.
- List of large-size currency types arranged by plate dates, treasury signatures, and denominations. This list, based on the collection of certified proofs in the Smithsonian Institution is incomplete, commencing c. 1875, with rare exceptions.

Monographs may exclude some of the above contents in cases where no relevant information comes to hand (for example if the organization date is unknown).

The bank monograph section in the *Tabular Guide to U.S. National Banks* commenced in Volume 5, and is expected to require many volumes for completion.

This Volume:

Volume 37 presents monographs on Charter Nos. 3201 to 3300 in the U.S. national bank series. As the documentation gathered for Volume 37 is extensive, all documentation tables and endnotes for Volume 37 are presented in Volume 37A.

Section 2: Bibliography

1935 * Volume 37: Bank Monographs * Newspaper
Titles

Newspaper Titles

Note on titles of newspapers cited in endnotes in all documentation volumes of the *Tabular Guide to United States National Banks* series from Volume 5A to 37A:

There are three or more possible sources of title information for the names of newspapers that are cited as sources of information:

Aggregator metadata titles: Online newspaper aggregators include metadata for each newspaper item indexed in their collections. This metadata includes a line which assigns a name to the newspaper from which the item was imaged.

Masthead titles: The name of the newspaper as it appears on the masthead at the top of the front page of the newspaper.

Running titles: The name of the newspaper as it appears at the top of each page of the newspaper subsequent to the front page. Historically the presence of the running title is omitted by some newspaper publishers.

In the preparation of volumes 5A through 29A, aggregator metadata titles were cited in bibliographical entries in the endnotes. Beginning with volume 30A, the titles cited are masthead titles. As a caveat, it should be noted that there are often substantial differences between aggregator metadata titles and masthead titles.

Cited Titles

Below is a list of government reports and bank directories that were extensively consulted in the preparation of monographs on United States national banks having charter numbers from 3201 to 3300, inclusive (see section 3 in this volume). Each charter number has a separate monograph.

Annual Report of the Comptroller of the Currency (1884-1922). Consulted for bank statistics and names of bank officers.

Bankers Almanac and Register (1884-1889) Consulted for street address listings of banks in large cities.

Bankers' and Brokers' Directory (1911-1926). Consulted for street address listings of banks in large and mid-sized cities.

Bankers' Directory and List of Bank Attorneys (1888-1898). Consulted for street address listings of banks in large cities.

Individual Statements of Condition of National Banks (1923-1935). Consulted for bank statistics and names of bank officers.

Rand-McNally Bankers' Directory and List of Bank Attorneys (1900-1935). Consulted for street address listings of banks in large cities.

Tabular Guide to United States National Banks, 1863-1935 * Volume 37: Bank Monographs * Smithsonian Collection of Certified Currency Proofs

How to view the Smithsonian Institution's collection of proofs of U.S. currency online

1) Find a bank in section 3 of volume 4 (*Tabular Guide to U.S. National Banks*) that has proofs in the Smithsonian Institution's collection. For a random example, let's select the following:

02042	IL	FNB of Carlinville	IL:03:133-IL:03:134	063
-------	----	--------------------	---------------------	-----

This is the First National Bank of Carlinville, Illinois, Charter number: 2042. The number 063 is the cell on the right is not pertinent to the Smithsonian Institution's collection, and won't be mentioned hereafter. The sequence of numbers and letters in the fourth cell directs the reader to the Smithsonian images and metadata.

2) Open up the link to the Smithsonian transcription portal:
<https://transcription.si.edu/search>

3) Type **Illinois box 3** into the query box and click the search button.

4) The response will include many results. In the column titled "PROJECT TITLE" click any of the links that read: "Certified Proofs of Illinois Box 3."

This link will bring you to the home page for **Illinois Box 3**.

5) Type **133** into the "Go to page" box, and click GO.

This will bring you to the first of two certified proof currency sheets of the above bank. View the image and accompanying metadata.

6) On the same page, find the button with the  symbol. Click on this to view the image and metadata on page **134**, which is the second of the two certified proof currency sheets.
